Comments	"Very simple and schematic drawing representing the coast of the Gulf of Mexico. It includes the Florida Peninsula, Yucatan, the Mainland coast to beyond God's Name and the islands of Cuba and Cozumel. The mouths of	

rivers are drawn by means of parallel strokes on the coast. It is pointed out the delimitation of jurisdictions that decided the observer Cristóbal de Tapia, in fulfillment of a royal certificate that ordered him to establish the limits of the discoveries of Juan Ponce de León, Juan de Garay and Diego Velázquez.” <http://pares.mcu.es/>.
