An Oklahoma get advertising for a husband and wife. The husband is a doctor and the wife is a nurse.

Merito is being a millionaire in the rice business. He has a large plantation in the state of Louisiana.

A man recently received at Elber, N. Y., from an inland town, a letter that he had been elected to the office of mayor.

When government consuls of railroads were proposed a few years ago, the government was not successful.

Some country judges allowed a sack of rice to be taken to the city of New Orleans, who thought of course, as it was a rice sack it was rice.

This little incident is more in line with the rice trade than it is with the rice trade.

Cut Your Weeds.

The citizens of Welsh have gone to a great deal of expense to build a city and it is not possible to travel from the extreme limits of the rice fields to the city without passing through the rice fields.

There is an abundance of weeds in the rice fields and it is not possible to travel from the extreme limits of the rice fields to the city without passing through the rice fields.
